Developed by Mental Health Commission of Canada

- **Type of Resource**
  - Training
- **Format(s)**
  - Virtual Training
- **Language(s)**
  - English and French
- **Description**
  The Mental Health Commission of Canada has developed two free crisis response training programs for essential workers during COVID-19:
  1) Crisis Response Training – Caring for Yourself, and
  2) Crisis Response Training – Caring for your Team.

  These programs are specifically designed to help provide individuals with the tools and knowledge to better understand their own mental health and the mental health of their team.
NON VETERAN-SPECIFIC WELLNESS RESOURCES

**05**

**MENTAL HEALTH, TECHNOLOGY, AND YOU**
Developed by Mental Health Commission of Canada

- **Type of Resource**: User Guide
- **Target Audience(s)**: General Public
- **Format(s)**: PDF
- **Language(s)**: English and French
- **Description**: This client guide provides an introduction to digital mental health tools, description of types of tools, examples of tool use, as well as a journey map to illustrate how tools can be navigated and accessed by users.

**06**

**ABOUTKIDSHEALTH COVID-19 LEARNING HUB**
Developed by AboutKidsHealth

- **Type of Resource**: Resource Directory
- **Target Audience(s)**: General Public, Parents, Children
- **Format(s)**: Webpages and Videos
- **Language(s)**: English
- **Description**: This hub includes resources on COVID-19 and how to help parents and children cope. There are resources on how to support children’s mental health and general well-being through physical activity, sleep, nutrition and learning. Also included are videos and audio meditations to help parents cope with stressful thoughts and experiences that occur throughout the day. Resource topics include:
  - Talking to your child about COVID-19;
  - Coping;
  - Mental Health;
  - Parenting;
  - Well-being; and
  - Tools, videos, and resources for you and your child.
COVID-19 RESOURCE DIRECTORY: PROMOTING AND MAINTAINING VETERAN WELLNESS DURING COVID-19 FOR VETERANS, VETERAN FAMILIES, AND SERVICE PROVIDERS WHO SERVE VETERANS

NON VETERAN-SPECIFIC WELLNESS RESOURCES

07 IMPACTS OF COVID-19 ON SUBSTANCE USE
Developed by Canadian Centre on Substance Use and Addiction

Type of Resource: Resource Directory

Format(s): Webpages and PDFs

Language(s): English and French

Description: This directory hosts resources developed by a variety of organizations in response to COVID-19. Resource topics include: • Virtual addiction counselling; • COVID-19: opioid agonist treatment and guidance; • COVID-19 crisis: harm reduction resources for people who use drugs; • Cannabis use and COVID-19; • COVID-19: harm reduction and overdose response; • COVID-19 and Cannabis smoking: 4 things you should know; • Caring for pregnant and parenting women with OUD during the COVID-19 pandemic; and more.

08 WELLNESS TOGETHER CANADA
Developed by Wellness Together Canada

Type of Resource: User Tool

Format(s): Variety (web-based)

Language(s): English and French

Description: Wellness Together Canada provides tools and resources to help Canadians get back on track. These include modules for addressing low mood, worry, substance use, social isolation, and relationship issues. Wellness Together Canada offers the following at no cost to Canadians: • Wellness self-assessment and tracking; • Self-guided courses, apps, and other resources; • Group coaching and community of support; and • Counselling by text or phone.

COVID-19 RESOURCE DIRECTORY: PROMOTING AND MAINTAINING VETERAN WELLNESS DURING COVID-19
FOR VETERANS, VETERAN FAMILIES, AND SERVICE PROVIDERS WHO SERVE VETERANS

NON VETERAN-SPECIFIC WELLNESS RESOURCES

09 COVID-19 OPIOID AGONIST TREATMENT GUIDANCE
Developed by Centre for Addiction and Mental Health (CAMH)

Type of Resource: Guidelines
Target Audience(s): Service Providers
Format(s): PDF
Language(s): English

Description:
This document provides a consensus interim guideline for management of opioid agonist therapy (OAT) with methadone and buprenorphine. It addresses office visits, remote visits, carry doses, and frequency of urine drug testing during the COVID-19 pandemic in light of the need for physical distancing, self-isolation, and quarantine while there is community transmission of COVID-19 in a prescriber’s area of practice. This document supplements existing standards and guidelines and is a resource for practitioners who are clinically proficient in the prescription of OAT. It is not a general guide to prescribing OAT. Guidelines provide recommendations; they are not a standard, are not to supersede clinical experience/decision-making skills.

10 COVID-19: ALCOHOL WITHDRAWAL MANAGEMENT PROTOCOL
Developed by Mentoring, Education, and Clinical Tools for Addiction: Primary Care-Hospital Integration (META:PHI) - Women’s College Hospital

Type of Resource: Protocol
Target Audience(s): Service Providers
Format(s): PDF
Language(s): English

Description:
This document provides medication recommendations and treatment protocols for managing alcohol withdrawal risk within a community provider setting.
